## SUMMARY

---

A Computer Science major, driven to learn more about Big Data & Data Science technologies. I am an analytical thinker, skilled in analyzing and visualizing data as well as developing predictive models for data analytics. The recent projects & internships I had allowed me to learn more about big data processes and I believe it would be beneficial for the junior roles in Data Science or Analytics I am currently seeking

## EXPERIENCE

---

**Virtuals Protocol** **Dec 2024 – Jan 2025**

*Data Engineer, Intern*

- Cleaned, preprocessed, and ingested data for RAG AI agents.
- Developed and wrote shell scripts that automated data ingestion processes of RAG AI agents
- Led a small team of Data Engineer Interns to automate the process of pulling raw datasets uploaded by users for later data preprocessing and ingestion

**Creative Dynamix Solutions, Inc.** **Sep 2022 – Oct 2022**

*X++ Developer, Intern*

- Utilized AnyDesk in tunneling through remote virtual machine for reporting tasks
- Developed and queried data reports using PowerBI and X++

## PROJECTS

---

**eda-denoiser-stress-detector** | *React.js, D3.js, Flask, Scikit-Learn, Tensorflow, Docker*

- Trained a hybrid deep learning model (LSTM-SVM) to denoise (remove artifacts from) electrodermal activity signals and detect points of stress in the signals of an individual
- Developed a web app to using React and Flask to integrate the trained LSTM-SVM
- Evaluated LSTM-SVM using multiple metrics such as ROC-AUC & Accuracy achieving 90% and 78% respectively

**project-alexander** | *Svelte.js, Flask, Leonardo.AI, Manim*

- Developed a portfolio website in Svelte and Flask compiling all my data science related projects.  
Link to portfolio: <https://project-alexander.vercel.app/>

**chronic-disease-analyses** | *T-SQL, PowerBI, Pandas, Selenium*

- Extracted population data across 2001 to 2021 in each us state to calculate tangible number of cases per chronic disease indicator in the US
- Analyzed most common chronic disease indicators across all demographics in all US states

## TECHNICAL SKILLS

---

**Languages & Tools:** Python | T-SQL | PowerBI | Excel | Git | Linux

**Frameworks:** Numpy | Numpy | Pandas | Matplotlib | Selenium

**Core Competencies:** Data Analysis & Visualization | Data Cleaning & Preprocessing | Web Scraping

## EDUCATION

---

**Polytechnic University of the Philippines**

**Aug 2019 – Mar 2025**

*Bachelor of Science in Computer Science*

- 2.1 GPA
